

DIY Craftapoolza

Soda Can Luminary

Supplies

Soda Can

Can Opener

Nail or Tack

Pattern

*(create your own from shapes
online or by drawing one)*

Paint *(optional)*

Paint Brush *(optional)*

Battery tealight

Instructions

1. Prepare the soda can by removing the can top using the can opener.
2. Rinse and dry can to ensure no left over soda residue.
3. Choose a pattern.
4. Transfer the pattern using nail or tack.
5. *Optional:* Paint the can. May need to paint the can multiple layers to cover the soda can completely. Go back through the holes with the nail or tack once the paint is dry.
6. Add a battery tealight.
7. Enjoy!
