### Instructions

1. Use a cotton ball to apply oil to your art. Make sure to cover all the paper. You don't have to drench the paper, just cover completely.
2. Dab excess oil up with a paper towel or tissue and allow to dry for about 5 minutes.
3. Using the mason jar lid, trace a circle around the art and then cut the circle, inside the line so the art fits inside the mason lid.
4. Apply a little bit of glue inside the lid and place the art in the lid, art side facing outward.
5. Wrap twine around the lid, tie a knot to hold in place. Leave at least 4" of twine and tie a knot at the top so you can hang your suncatcher.
6. That's it!
