TEEN TUESDAY CRAFT
DIY PEN HOLDER

Hey teens, this craft is a fun way to upcycle an empty soup can or other container to organize your pens and pencils!

- Grab a coloring book you have at home & de-stress a bit by coloring a page you like.
- Cut the page out of the coloring book and wrap it around the empty can using double-sided tape (you may have to cut the coloring page to fit the can).
- If you have some washi tape at home, you can add a border to your design.
- And, voila! Not only have you helped save the earth one recycle at a time, but you have a fancy new pen holder! Woot, woot!

Grab your supplies!

And, voila!
